

Pacole't's Home Economics Laboratory Has Recently Undergone Improvements

This picture of the Home Economics Laboratory, as it is called in high sounding pedagogical terms, is displayed here to call your attention to a few of the physical improvements recently added to the Home Ec. Room. In connection with the State Department of Education, Division of Home Economics, and as a direct result of about 50 percent financial aid therefrom, the school was able to go forward with its general program of development and improvement to the extent of adding the following things. Eight cabinets including both wall and floor variety were constructed. A dividing counter or wall was added to effectually separate the two-unit kitchens. One new Universal range and water heater were added as well as a kitchen sink and under-sink cabinet to complete the

kitchens. One range and refrigerator were already installed. **SOME IMPROVEMENTS NOT SHOWN**

Not shown in the picture is the combined dining and living room nook equipped with buffet, folding leaf table, bookcase etc. of lively looking maple. It is hoped that we can add to this nook as time goes along. Linoleum rugs here and there, ironing board, percolator, and many other utensils have been added. One particular point of pride with the department is the creditable additions to the departmental library.

It is hoped that the young ladies of the school will look more and more toward this department and will seriously undertake the matter of making better homes, even to the point of the new course in

Better Home Living. This course along with the regular first, second and third year courses makes up the offerings of the department. —W. S. PARRISH, Supt.

First Aid Courses Are Started At Both Plants

First Aid Courses for both plants began on Oct. 17, 1949. We have an enrollment of 91. Classes for the second shift meet from 10 a.m. to 12 noon on Monday, Wednesday, and Friday. Classes for the first and third shifts meet from 7 p.m. to 9 p.m. on Monday, Wednesday, and Friday.

We are very fortunate in having Mr. Jerry Pearson of Fairforest Finishing Plant to instruct our morning classes, and Mr. E. E. Genoble of the Spartanburg Fire Department as instructor for the evening classes.

We are hoping that everyone will attend all classes so each can

obtain his certificate on completion of the course.

—CAREY HENSON.

CONGRATULATIONS TO NEW ARRIVALS

Mr. and Mrs. Jack Lemmons announce the arrival of a son.

Mr. and Mrs. Robert Pierce are the parents of a brand new son.

A little daughter has arrived to Mr. and Mrs. Jesse Spurlin.

Mr. and Mrs. Holland Hines are the parents of a little daughter.

To Hold X-Ray Clinics Here

The Spartanburg County Tuberculosis Association will hold a chest X-Ray Clinic at Pacolet Mill No. 5 on Tuesday, November 8, and Mill No. 3 on Wednesday, November 9 for Mill employees; and on Thursday, November 10 the unit will be at the Girls' Club from 10:00 a.m. to 4:00 p.m. for the general public. Price for these X-Rays is 50 cents each.

Let's make this 100 percent! Spartanburg County Tuberculosis Association.

White Trojans See World Series

On Monday morning, October 3, our baseball team started on their journey toward the big city and the world series. While enroute they stopped over in Washington to visit the points of interest there. Arriving in New York Tuesday afternoon, they saw the first two games of the series and spent the rest of the week seeing the sights which only New York City can offer.

While there James (Smokey) Mathis, William (Shug) Trent and Brownie Trent visited Sgt. and Mrs. Ray Mathis of Keansburg, New Jersey.

Mrs. Ben Brown Has Unusual House Plant

After eight years of care, Mrs. Ben Brown was awarded the pleasure of seeing her house plant, commonly called "The Midnight Cactus" bear three blooms.

For several hours friends and neighbors dropped in to see these beautiful blooms. The buds started opening around seven o'clock, and by ten they were fully open, and promptly died at dawn.

This cactus, the night blooming bloom every year hereafter.

Cereus, known as Epiphyllum Oxypetalum, according to Edward J. Alexander of the New York Botanical Gardens, is very rare in this country, although fairly common in Mexico and Central and South America. In its native habitat, this cactus blooms at night for the reason it is pollinated by

Talking Things Over

OUR STANDARDS DEPARTMENT PROGRAM

By this time most of our people are familiar with the Standards Department program which is in progress. This program will be discussed briefly here.

First, it is very definitely a necessary procedure. Second, there should be no secrets or misunderstandings as to why this program is necessary. One of the reasons why it is a necessary procedure is the fact that every efficiently operated textile plant has had this Standards Department, or some similar study made, hence they are on a high plane of production. It is by no means a plan to add additional work to the employees, though frankly, it can conceivably add additional duties to some employees, and it can conceivably reduce the duties of others. Both these results have occurred where studies have been made.

The aims of the Standards Department program are very simple and very practical. It is to learn from actual and scientific study just what the work assignment should be. This information cannot be obtained in a haphazard fashion. It cannot be "guessed" correctly what a proper work assignment is. There must be method and science employed to arrive at correct answers. And we want to learn just what duties should be assigned to each job. Unless a thorough study is made an operative may be performing duties which do not fit into the job and do not rightly belong to the job. So we want to get a system to our plan of operations. This is entirely necessary.

We are earnestly and sincerely striving to work out a just and fair plan of operation. It will take time. The task cannot be done overnight. We earnestly and sincerely ask your cooperation in this undertaking. If this plant is efficiently operated we shall all enjoy the benefits from such successful operation. If it is inefficiently and unwisely operated we shall all suffer.

Let us all do a good job.

—M. C. STONE.

night flying insects, usually moths. The moths take the pollen from the stamen of one plant and deposit it on the pistil of another, thus fertilizing the second plant.

This night blooming Cereus, the exquisite flower of which is snow white and wax-like, may bear from two to thirty blossoms, depending on the soil and climate. The fruit has a brilliant purple skin and a white fleshy pulp. It is said to be good to eat, tasting like a cucumber soaked in sugar.

If the plant is kept indoors and there are no moths around, the flowers do not develop into fruit, just dropping off.

There have been several in the community that have had these night blooming Cereus, and Mrs. Brown thinks she has been amply rewarded for the years of caring for her plant.

Lovely Birthday Party

Miss Katherine Parker, daughter of Mr. and Mrs. Walter Parker was honored Saturday, October 8th with a birthday party at the Girl's Club. As Katherine entered the reception room, she was greeted by a host of friends shouting "Happy Birthday". After this everyone began to move toward the punch bowl where Mrs. Thelma Henderson served punch. After several games, led by Mrs. Henderson, Katherine was presented a variety of gifts which she enjoyed opening.

The guests were then invited to the refreshment table which was made lovely with an arrangement of mixed flowers. The birthday cake and individual cakes each centered with a candle, delicious chicken salad sandwiches, potato chips and mints were served by the hostess.

BIRTHDAY CELEBRATIONS

MR. VEHAUN—90

Mr. William Veahun of Mars Hill, N. C., celebrated his 90th birthday at the home of his daughter, Mrs. Florence Banks on Miliken street.

There were 8 grand children, 13 great grand children and 3 great, great grand children present. Sharing honors with Mr. Veahun were Mr. Carey Loving and Mr. Jimmy Motts. Besides the immediate Banks family those present were: Mr. and Mrs. Cole Berry and family of Converse, and Pfc. Jackie Banks of California.

The dinner was a very joyous occasion for this large family gathering.

PACE—

Mrs. Donald Pace was honored Saturday, October 1st with a household shower at the Girls Club. About 66 of her friends attended this party. After about an hour of fun the group gathered around to view the many useful and lovely gifts which Mrs. Pace received.

The hostesses served very tasty refreshments of congealed salad, chicken sandwiches, potato chips, cookies and coffee.

REYNOLDS—

Miss Catherine Reynolds, daughter of Mr. and Mrs. A. G. Reynolds celebrated her 19th birthday with a party at the Girls Club, October 5th. Catherine's friends remembered her with many nice gifts. After several games and contests led by Mrs. Eddie Wells, the guests were served delicious refreshments of sandwiches, potato salad, mints and punch.

Out of town guests were: Messrs. Ed. Taylor, Irley Taylor, Charles Banks, Dorsey Marr and Lawrence Few.

HARRIS—

Little Miss Marty Kay Harris, daughter of Mr. and Mrs. Graydon Harris, celebrated her second birthday Saturday, Sept. 24th with a lawn party at the home of an aunt, Mrs. Ruby Mulwee. About 25 of her friends attended. Many games were enjoyed, after which ice cream, cakes, crackers and drinks were served the little guests.

Mrs. Harris was assisted in serving by Mrs. Jessie & Virginia Paige, Ruby Mulwee and Lda Mae Harris.

In 1895, the headgear of Marines was a spiked helmet.

Pacole't Mills Baptist Church

A few nights ago a very impressive service was held at the Baptist Church. It was the occasion of the installation of the officers of the W. M. U. Dr. Sam Lawton of Spartanburg conducted the devotional service. Special music was furnished by the male quartet. Mrs. J. M. Culcleasure of Spartanburg was the installing officer. As each officer's name was called she went to the rostrum where she was presented with a candle, the same was lighted and then she passed through a door on the rostrum. The pastor led the dedication prayer.

The following were installed: Mrs. Foye Baker, president; Mrs. Furman Mabry, vice president; Mrs. Alfred Parker, second vice president; Mrs. Thelma Henderson, Young People's director; Mrs. C. W. Pearson, secretary; Mrs. Frank Bryant, treasurer; Mrs. Clifford Winters, Mrs. C. W. Pearson, Miss Pearl Kirby; Mrs. J. W. McCraw, circle chairmen; Mrs. Hermon Davis, Young Woman's auxiliary; Mrs. J. C. Arnold and Mrs. Lewis Wilkins, Girl's auxiliary; J. C. Arnold and Lewis Wilkins, Royal Ambassadors; Miss Martha Ann Reeves and Miss Mildred Holland, Sunbeams; Mrs. John Reeves, pianist. Refreshments were served in the social hall following the service.

We are now in the midst of our annual Mission School. There is first a period of forty minutes of class work. There are classes for the Primaries, Juniors, Intermediates, Young People, and Adults. Then all classes go into the social hall for refreshments, hence to the auditorium for the lecture by one of our missionaries. The following are giving the lectures, one each evening: J. Perry Carter, Louisville, Ky.; Isaiah Valdevia, a Chilean; Mrs. J. P. Carter of Louisville, Ky.; J. L. Chavez, a Mexican, pastor of a Mexican church in Texas; Miss Emily Lansdell, missionary to China; Percy Hughes and Alfred Carpenter, workers of our Home Mission Board of Atlanta, Ga.

—W. T. TATE, Pastor.

THANKS — SO MUCH!

Mr. and Mrs. Buddy Pace wish to thank their friends for the generous pounding of foodstuffs last week. This kindness was appreciated more than words can express.

Mr. Pace is still in bed suffering from injuries received in an automobile accident several weeks ago.

Volley Ball Teams Are Entertained

Chicken! Chicken! and more Chicken! Yes, here it is again—the delicious barbecue and this time it's for the Volley Ball and Soft Ball Inter-Dept. league. The boys from Mills No. 3 and 5, 1st shift, had a wonderful time with that chicken Tuesday night, Oct. 25th at 6 o'clock at the play ground, while the same thing happened to the 2nd and 3rd shifts, Saturday, Oct. 29th. Lewis Jones, with his helpers, does a wonderful job with that chicken.

VICTOR INN

Miss Elizabeth Smith of Pacolet Mills has taken over supervision of Victor Inn, since Miss Moselle Huff's retirement.

Miss Smith is a graduate of Limestone College and has taught Home Economics for several years.

Love Is Cockeyed

The stingy farmer was scoring the hired man for carrying a lighted lantern to call on his best girl. "The idea," he exclaimed. "When I was courtin', I never carried no lantern; I went in the dark." "Yes, said the hired man, sadly, "and look what you got."

FAVORITE RECIPES

POUND CAKE

1 doz. eggs, 4 cups flour.
1 lb. butter, 2 cups sugar.
1 tsp vanilla.
Cream butter, add sugar and add lightly beaten eggs—add flour. After mixture is well blended add vanilla. Bake in moderate oven.
—Mrs. Harry Greene.

CREAM CUSTARD PIE

3 eggs—Beat light and add 3-4 cup sugar and 1 tbsp. butter. Beat again—Add
1-2 cup condensed milk
1 cup plain milk
2 tbsp shredded coconut.
Pour into unbaked pie shell and bake in hot oven.
—Mrs. B. F. Holmes.

TIME TO LIVE

We urge ourselves to goals that too often become ashes in our hands. To get the most out of life, we must take time to live.

Time to read good books; time to hobnob with thinkers, poets, explorers, adventurers, seers, and prophets.

Time to play with the children and to discover again the fountain of youth. Time for friendships, for quiet talk by the fire, for walks beneath the stars. Time for laughter, time for letting go and filling the heart with mirth. Time for nature, time for flower gardens, trees, birds, and sunsets. Time to love and be loved, for love is the greatest thing in the world. Time to loaf and dream, and grow a great soul. Time for service, time to be a good neighbor, and to help to make our community a better place in which to live. Time for music that washes away from the soul the dust of everyday life.

Time for worship, for the spiritual stimulus of being in tune with the Infinite. Yes, let us take time to live. Let us pray as Matthew Arnold, "Calm, calm me more nor let me die before I have begun to live."
—Jaqua Way.

Enlisted men in the Continental Marines of 1776 wore green coats and green coats.

SCOUTING

Scout Leader Curtis Pucket, and Scouts who attended camp.

Pacoret Mills has two Scouts who have attained the rank of Eagle Scouts: Beverly Motts, son of Mr. and Mrs. Adam Motts; and Edsel Garner, son of Mr. and Mrs. Edsel Garner. Scouting has always had an important place in the activities at Pacolet Mills, with every encouragement possible given to young boys to become affiliated with this fine organization.

EDSEL GARNER

BEVERLY MOTTS

MOTHER'S STAGGERIN BILL

A ten-year-old overheard a conversation about certain bills for service rendered which had to be paid and conceived the idea of making out a bill of his own services. So the next morning he laid his statement of account on his mother's breakfast plate: "Mother owes Willie for carrying coal six times, twenty cents; for bringing water lots of times, thirty cents."

His mother read the bill, but said nothing. That evening Willie found on his plate the sixty five cents, and also another bill, which read as follows: "Willie owes mother for his happy home of ten years, nothing; for his food and clothing, nothing; for nursing him

through a long illness, nothing; total—nothing."

When Willie saw the sixty five cents he was pleased, but when he read his mother's note his eyes became dim and his lips quivered. Then he took the money to his mother, threw his arms around her, and begged that she would let him do lots of things for her. Mother's bill is rarely presented, but it will pay each child to think it over for himself and then pay it in love and service.

After all this world is rather a mystery, if we understood it we'd probably be confused.

Don't worry, if you've got common sense you're pretty safe and will get somewhere.

The First Thanksgiving Proclamation

"Whereas, it is the duty of all nations to acknowledge the providence of Almighty God, to obey His will, to be grateful for His benefits, and humbly to implore His protection and favor; and whereas, both Houses of Congress have, by their joint committee, requested me "to recommend to the people of the United States a day of public thanksgiving and prayer, to be observed by acknowledging with grateful hearts the many and signal favors of Almighty God, especially by affording them an opportunity peaceably to establish a form of government for their safety and happiness."

Now, therefore, I do recommend and assign Thursday, the 26th day of November next, to be devoted by the people of these states to the service of that great and glorious Being who is the beneficent author of the good that was, that

is, or that will be; that we may all then unite in rendering unto Him our sincere and humble thanks for His kind care and protection of the people of this Country . . . to protect and guide all sovereigns and nations and to bless them with good governments, peace, and concord; to promote the knowledge and practice of true religions and virtue, and the increase of science among them and us; and, generally, to grant unto all mankind such a degree of temporal prosperity as He alone knows to be best.

Given under my hand, at the city of New York, the third day of October, A.D. 1789.

—G. WASHINGTON.

The other day a minister met my wife for the first time, he said —"lady you ought to have a pension" Aw—preacher go chase your self.

THE BUILDER

O Builder, will you build a house for me,

With windows wide and tall, that I may see

The distant woods, the nearer cedar tree?

O builder, will you build it strong and fine,

With sturdy walls to shelter these of mine

With grace and beauty in each lovely line?"

"Oh, that," said he, "I'll do right readily

A labor of delight twill surely be."

"O builder, will you build a home for me,

Where love and happiness will ever be,

Where all who dwell will live in harmony,

And those who come will always welcome find?

A place of peace, with voices ever kind

To soothe the weary heart and troubled mind?"

"Ah, that, alas, I cannot do," said he;

"Of that you must yourself the builder be."

Thanks to—Julia W. Wolfe.

Correct Reasoning

A certain young man's friends thought he was dead but he was only in a state of coma. When, in ample time to avoid being buried, he showed signs of life, he was asked how it seemed to be dead. "Dead," he exclaimed; "I wasn't dead, I knew I wasn't dead, too, because my feet were cold and I was hungry."

"But how did that fact make you think you were still alive?" asked one of the curious. "Well, this way. I knew that if I was in heaven I wouldn't be hungry, and if I was in the other place my feet wouldn't be cold."

A married couple having a violent argument, the husband was the first to get tired of the whole thing.

"Darling," he said, "I've been thinking this whole situation over, and I've come to the conclusion that I agree with you."

"That won't do you any good," shot back his wife, "I'VE changed my mind."

Remember a human is the most intellectual being on this earth but makes mistakes.

YESTERDAY—TODAY AND TOMORROW

There are two days in every week about which we should not worry—two days which should be kept free from fear and apprehension.

One of these days is Yesterday with its mistakes and cares, its faults and blunders, its aches and pains. Yesterday has passed forever beyond our control.

All the money in the world cannot bring back yesterday. We can not undo a single act we performed; we cannot erase a single word we said. Yesterday is gone. The other day we should not worry about is Tomorrow with its possible adversities, its burdens, its large promise and poor performance. Tomorrow is also beyond our immediate control.

Tomorrow's sun will rise, either in splendor or behind a mask of clouds—but it will rise. Until it does, we have no stake in tomorrow for it is as yet unborn. This leaves only one day—Today. Any man can fight the battles of just one day. It is only when you and I add the burdens of those two awful eternities — yesterday and tomorrow that we break down.

It is not the experience of today that drives men mad—it is remorse or bitterness for something which happened yesterday and the dread of what tomorrow may bring. Let us therefore, live but one day at a time.

FOR THE BEAUTY OF THE EARTH

For the beauty of the earth,
For the beauty of the skies,
For the love which from our birth
Over and around us lies,
Christ our God, to Thee we raise
This our hymn of grateful praise.

For the joy of human love,
Brother, sister, parent, child,
Friends on earth and friends above;
For all gentle thoughts and mild,
Christ our God, to Thee we raise
This our hymn of grateful praise.

For Thy church that evermore
Lifteth holy hands above,
Offering up on every shore
Its pure sacrifice of love,
Christ our God, to Thee we raise
This our hymn of grateful praise.

For Thyself, best Gift Divine!
To our race so freely given;
For that great, great love of Thine,
Peace on earth, and joy in heaven,
Christ our God, to Thee we raise
This our hymn of grateful praise.
Folliott S. Pierpont.

The scenes below show a portion of the Pacolet School Lunch Room which has a seating capacity of 250. Handwashing facilities, including soap and towels are provided.

HIGH SCHOOL GROUP—PACOLET LUNCH ROOM

ELEMENTARY GROUP — PACOLET LUNCH ROOM

THE KITCHEN OF THE PACOLET SCHOOL LUNCH ROOM

Pacole School Lunchroom Has Been Modernized

The accompanying pictures are photographic evidence of a long cherished dream come true. An adequate, attractive, well designed lunchroom has been one of the number one needs of the Pacolet Public Schools for a long time. Thanks to the constant support of the elementary and high school boards of trustees and the general financial help made possible through the recent high school district consolidation, it is now an established part of our school plant.

A word of appreciation is in order too for the fine crew of workers under the direction of Mr. R. L. Brooks. They helped make it pos-

sible for us to have a good building unit at a very reasonable figure considering present building cost. Mr. Brooks took particular delight and pride in it in that he has long advocated just such a project in connection with the school.

To be sure the real test of the pie will be in the eating. That is to say that the real value of the unit will depend in large measure on those who put the food on the table. Mrs. Genoble and her staff of workers are doing an excellent job of serving good nourishing meals and it is to be hoped that she and her successors down through the years will continue to do just that. Contributing greatly

Pacole School News

Almost all of the grades have taken advantage of the beautiful October days to make field trips. These are some of the notes from their trips.

The first grade found a frog, some crickets, worms, grasshoppers, spiders, and ants. They put the ants in a jar to study. They gathered moss and plants for a terrarium. You will see their picture in this issue of The Pacolet Neigh, also one of the second grade. On their trip, the second looked for the signs of autumn, studying seeds, flowers, leaves, and animals. They had a good time.

The third grade has been very interested in keeping a weather chart and a Fall Sun Record. They have also mounted many butterflies, moths, worms, and grasshoppers and placed them on their science shelf. They are painting nuts, berries, pine cones, and burrs for a fall basket for their Thanksgiving scene. On November 4 they will give a play in chapel, "Hunting for Health."

The fourth grade presented an interesting chapel program October 21, entitled "In the Land of No Reading." This was a timely introduction for our Book Week, November 13-19. The most interesting insect they found on their field trip was a walking stick. Did you ever see one?

The fifth grade used their field trip to do some sketching of the autumn trees, as well as collecting materials for their science class.

STUDENTS PLANT FLOWERS

6B Class has taken over the flower beds in our yard and have planted pansies and snap dragons. They have also made a terrarium for their room.

6A's special feature for the month was an interesting talk given by Mr. Tate on Egypt. He seemed to make it so much more interesting than the reading in their geographies.

The seventh grade has been making quite a study of Indians this year. They have drawn Indian scenes, arranged an Indian sandtable, and made many of the canoes, beads, and pottery of Indian style. On their field trip they found many plants and insects of interest, but the most interesting thing they saw was an Indian face carved on a big rock. Now they

want to know WHO DID IT? Do you know?

EDUCATION WEEK NOVEMBER 6-12

Pacole Mills School will observe Education week with a special Open House event Friday, Armistice Day, November 11 from 3:30 to 5:30. All patrons and friends of the school are cordially invited.

Education Week was founded by the American Legion, an organization of three and one-third million veterans of the world wars who served in the armed forces of the United States. It is still one of the leading national sponsors. The other national sponsors are the National Education Association, an organization of over 400,000 educators working to promote the welfare of children and the teaching profession; the United States Office of Education, which makes reports and studies of educational problems; and the fourth sponsor is the National Congress of Parents and Teachers, with over five and one-half million members working for child welfare and higher standards of home life.

"MAKING DEMOCRACY WORK"

The general theme for the week is "Making Democracy Work". Democracy depends upon the intelligence of the many rather than the wisdom of a few. People are the authority and the strength. Through their zeal and ability to govern themselves the ideals of freedom take root and blossom. That is why popular education is essential to the survival and nurture of our free government. The public schools stand as constant reminders of this fact. Current trends and events make it more important than ever for democracy to flourish here at home. They point to the need of more vigorous instruction in and for democracy. To achieve this end we must extend and improve the educational program in terms of the aims and needs of present day America. Democracy casts its bread upon the waters when it equips our schools and colleges in terms of their mighty responsibilities.

The daily topics are: Sunday, The Worth of the Individual; Monday, Educational Opportunity; Tuesday, Responsible Citizenship; Wednesday, Health and Safety; Thursday, Home and Community Obligations; Friday, Our Freedom and Security; Saturday, Next Decade in Education.

SECOND GRADE, PACOLET MILLS SCHOOL
MRS. MILDRED ROBINETTE, Teacher

FIRST GRADE, PACOLET MILLS SCHOOL
MISS BLANCHE GOING, Teacher

ICS COURSES ARE STUDIED HERE

Pacole is beginning four ICS classes in Spinning and Plain Weaving. Classes will be held two hours each day, twice a week. Instructors are: Horace Henderson, David Smith, Marvin Brown, and Wilson Lee.

More ladies would look spic in slacks if they didn't have quite so much span.

to the overall success of the entire project has been the very efficient, and generous amount of time, labor, and thought being continuously devoted to the School Lunch Program by Mrs. Parrish.

As manager of the whole project for the entire school she has shared largely and freely in its troubles, joys, headaches, and development.

I am greatly pleased at this step taken by the community and beseech you to use it wisely but freely for your school and the community. Remember, your school belongs to you—use it.

—W. S. PARRISH, Supt.
